Good Afternoon Pirate Families,

The NCS administrative team continues to assess the circumstances and concerns created by the COVID-19 virus. We were proactive in our approach in addressing current covid concerns upon our return from break. Proactively transitioning to remote learning allowed us to better contain travel related spikes in our community and minimize possible contact. We feel strongly that in-person instruction is best for our families whenever feasible and will return to in-person learning Monday, April 12<sup>th</sup>, 2021 as previously planned. We will continue to closely monitor the situation and adjust accordingly.

The well-being of students and staff continues to be our top priority. Please monitor your child(ren) and keep them home if exhibiting any symptoms of the COVID-19 virus or any type of illness, immediately report to the school and health department any COVID positive test so we can continue in our efforts to proactively deal with any situation that arises. We appreciate your continued support, feel free to contact myself or any district administrator if you or your student has any questions and/or concerns.

Stay safe & healthy Pirates!

Sincerely,

James E. Graham

Superintendent
